

BROCHURE

CJ ROUND
LANDSCAPES

Have a garden to admire

About us

C J Round landscapes is a family run business and has been trading non-stop since 1991. Initially started by Craig, who kickstarted his horticultural career as a head gardener for a large house in Cheshire. Going from strength to strength and building up a very successful landscaping business taking on a wide range of projects.

Craig then introduced his son Christopher to the business in 2006. Since then they have worked hard to build the business to now be able to take on large multiple projects. C J Round landscapes has grown into one of the biggest companies in the northwest whilst still promising the personal 1 to 1 experience of a smaller company.

What to expect

From the initial call you can expect a polite, professional and efficient service and we will have a brief chat about your requirements and arrange a date and time for a visit that suits you, including evenings and weekends.

- and more...

Start to finish

Discussing your requirements

When we arrive at your property we will discuss your plans and advise and assist you as required. If you don't have any ideas we will work with you to come up with a design for your garden with a portfolio and brochures for you to look at for ideas and products that would suit.

Site survey and quotation

After a full site survey we will send you a full quotation we will endeavor to do our best to give you a quote on our first site visit. However, larger projects may take a couple of weeks. All the quotes are valid for three months and if written acceptance is received within this period we will hold the price until we commence with the works.

The Project

Once the project has started and throughout all of its stages, our designers and workforce will be available to answer any questions that you may have. We can also discuss any changes or additions that you are considering and guide you with any ideas.

All advice and help along with the quote is free of charge, however, our designers can offer a scaled plan drawing that has a small fee depending on the complexity of the drawing.

Our promise

C.J. Round Landscapes prides itself in conforming to all current health and safety regulations and we will also make sure your property is left clean and tidy at the end of each day and upon completion.

Specialists in
all aspects of
landscaping

CJR processes

To start Chris will quote for the project as accurate as possible. We will wait to hear from the prospective customer to make a decision. Once we have been given the go ahead you will be given an idea of a start date.

Nearer the time of the start date we will call you and depending on the complexity of the project possibly have another meeting so everything can be finalised.

After care advice

- | | |
|------------------|---|
| New turf - | Keep well watered for 2 weeks. Never let it dry out until the turf has rooted. It should be self sustaining after that. |
| New paving - | Don't walk on any new paving for at least 3-4 days. Only a very light jet-washing is needed after. |
| Treated timber - | All timber used is pre treated and shouldn't need any treatment for 2-3 years depending on weather conditions. |
| Tarmac - | Tarmac is usually ok to walk on within 24 hours. In hot weather usually a little longer. You can drive on within 4 days but can scuff easily within the first 48 hours. |
| Plants - | Keep all plants well watered until roots are established. It's important they do not dry out in this period. Wilting is a tell tale sign of drying out. |

Meet the Rounds

Father and son owners Craig Round and Christopher Round.

Contact us

If you are after a quote or further information, please contact us via the details listed. We are more than happy to answer any further questions. We look forward to hearing from you.
